

Chapter 5 Assignments(Pre-Algebra)

	Group 1	Group 2	Group 3	All	Helpful Hints
5.1 - Comparing and Ordering Rational Numbers	Pages 239 (5-30)	Page 239 (29-45)	Page 240 (53-59)	Page 240 (66-72)	When finding the LCM, you must first find the prime factorization. Then use the greatest power of each factor.
5.2 - Fractions and Decimals	Page 244 (1-22)	Page 244 (24-43)	Page 245 (45-54)	Page 245 (44, and 55-60)	All fractions can be written as a decimal. When comparing fractions and decimals, get them all into the same form.
5.5 - Using Customary Units of Measurement	Page 259 (5-30)	Page 259-260 (31-49)	Page 260 (56) and Page 261 (69-78)	Page 260 (63-68) and Page 261 (85-92)	Make sure you know your conversion factors! Your planner has a list of most of them.
5.6 - Work Backward	Pages 265-266 (1-10 - select any 6)	Pages 265-266 (1-10 - select any 6)	Pages 265-266 (1-10 - select any 7, must do 9 and 10)	Page 266 (15-37)	Working backward from known information will sometimes help you solve a problem.
5.7- Solving Equations by Adding or Subtracting Fractions	Reteach 5.7 Worksheet	Practice 5.7 Worksheet	Enrichment 5.7 Worksheet	Page 271 (47-54)	Use inverse operations to solve. *Addition and subtraction are partners
5.8- Solving Equations by Multiplying or Dividing Fractions	Reteach 5.8 Worksheet	Practice 5.8 Worksheet	Enrichment 5.8 Worksheet	Page 276 (1-23 checkpoint)	Use inverse operations to solve. Don't forget about reciprocals!
5.9 - Powers of Products and Quotients	Page 280 (5-31)	Page 280 (32-52)	Page 280-281 (57-63)	Page 281 (69-81)	When simplifying an expression, remove as many parentheses as possible.

Name: \_\_\_\_\_
